

# New among cartridges

Inside the pneumatic system, the air dryer cartridge is an important, safety-relevant component. Installed between the compressor and reservoirs a cartridge is the first line of defense protecting a vehicle's air system.

Cartridges dry and clean compressed air protecting the system from corrosion and freezing. As a result, the entire air system is kept operating safely and at peak performance.

## About

- Reduced height (135 mm)
- Perfect fit for DAF truck application

## Key Features

- Standard Cartridge type
- Filter water
- Covering M41x1.5 right-hand thread
- Up to 14 bar working pressure
